TERMS AND CONDITIONS

DEFINITIONS

As used throughout this Order, the following definitions apply unless otherwise specifically stated:

- a. "Goods" means those part numbers, model numbers and/or descriptions set forth in Exhibit A.
- b. "Indemnified Parties" means (i) District, its Board of Supervisors, agents, officers, and employees, the Engineer, District Manager, and such other parties as District may reasonably request. Any one of the foregoing is an "Indemnified Party."
- c. "Project" means the delivery of the Goods.

GENERAL PROVISIONS

1. PRICE. The Price set forth above includes all applicable taxes, recognizing the tax-exempt status of the District, and all tools, equipment, supplies, insurance and other materials or services (including without limitation all packing, loading or freight) necessary to deliver the Goods, with the exception that the freight number may change based on actual freight costs.

2. TERMS OF PAYMENT. Seller's Invoice ("Invoice") must be submitted before payment will be made by District pursuant to this Order.

- a. PAYMENT OF FIXED PRICE CONTRACTS. Seller's Invoice will be paid by District not later than thirty (30) days following receipt to District.

3. SCHEDULE. Seller shall deliver the Goods per the schedule ("Schedule") and/or term ("Term") shown on Page 1 of this Order. Time is of the essence with respect to this Order, and Seller shall not deviate from the Schedule without District's prior written consent. District may cancel this Order or any part thereof or reject delivery of Goods if such delivery or performance is not in material accordance with the specifications of this Order, including the Schedule.

4. TERMS APPLICABLE TO THE PURCHASE OF GOODS.

- a. DELIVERY. On all deliveries of Goods, freight shall be prepaid by Seller, which amount is included in the lump sum not to exceed price, and risk of loss shall pass at the time such Goods are delivered at the Project and the Goods are accepted by District. The Delivery Date shall be the date provided by District to Seller in writing.
- b. WARRANTY. In addition to the specific warranties provided in the attached Exhibit A and any additional manufacturer warranties, Seller warrants that the title to Goods conveyed shall be good and that the transfer of the Goods shall be rightful. The Goods shall be free from any security interest or lien, and the Goods shall conform to the description herein stated and any specifications provided by District. Seller agrees to assist in administering all warranty claims with manufacturer. All Goods are subject to inspection by District before, upon, and within a reasonable time after delivery. Goods shall not be replaced without District's prior written instructions. Any acceptance by District shall not prevent District from later rejecting non-conforming Goods.

5. [RESERVED.]

6. COMPLIANCE WITH LAW. Seller agrees that at all times it will comply with all applicable federal, state, municipal and local laws, orders and regulations.

7. INDEMNITY. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, SELLER (ON BEHALF OF ITSELF AND ANY SUBCONTRACTORS) AGREES TO FULLY INDEMNIFY, HOLD HARMLESS AND DEFEND THE INDEMNIFIED PARTIES FROM AND AGAINST ANY AND ALL CLAIMS, LOSSES, DAMAGES, FINES, CAUSES OF ACTION, SUITS AND LIABILITY OF EVERY KIND INCLUDING COURT COSTS AND ATTORNEYS' FEES FOR INJURY TO OR DEATH OF ANY PERSON, FOR DAMAGE TO ANY PROPERTY AND ALL OTHER DAMAGES (COLLECTIVELY, "DAMAGES") TO THE EXTENT CAUSED BY THE NEGLIGENT OR WILLFUL ACTS AND/OR OMISSIONS OF SELLER (EXPRESSLY EXCLUDING, HOWEVER, DAMAGES CAUSED BY DISTRICT'S OWN NEGLIGENCE). THE PROVISIONS OF THIS

SECTION 7 SHALL SURVIVE THE COMPLETION OR EARLIER TERMINATION OF THIS ORDER.

8. [RESERVED.]

9. DEFAULT. Upon any material default by Seller hereunder, District may, in addition to any other remedies available to District at law or in equity, cancel this Order without penalty or liability by written notice to Seller. Seller shall be liable to District for all expenses incurred by District due to such termination. Seller's obligations under this Section 9 shall survive any termination of this Order.

10. LIMITATION OF LIABILITY. Nothing herein shall be construed to be a waiver of the District's limit of liability contained in Section 768.28, *Florida Statutes*.

11. WAIVER. Any failure of District to enforce at any time, or for any period of time, any of the provisions of this Order shall not constitute a waiver of such provisions or a waiver of District's right to enforce each and every provision.

12. MODIFICATIONS. This Order supersedes all prior discussions, agreements and understandings between the parties and constitutes the entire agreement between the parties with respect to the transaction herein contemplated. Changes, modifications, waivers, additions or amendments to the terms and conditions of this Order shall be binding on District only if such changes, modifications, waivers, additions or amendments are in writing and signed by a duly authorized representative of District. If such changes result in a decrease or increase in Seller's cost or in performance time, an adjustment to the Price and Schedule must be made and agreed upon in writing by both District and Seller.

13. ATTACHMENTS. Any document referenced on Page 1 of this Order, including but not limited to Exhibit A attached hereto shall be for the sole purpose of providing a description of the Goods. Any quote attached as Exhibit A hereto shall be for the purpose of indicating the maximum price of the Goods and delivery totals. The terms of this Order shall be deemed to control over the terms of Exhibit A attached hereto.

14. APPLICABLE LAW. The validity, interpretation, and performance of this Order shall be governed by the laws of the State of Florida, in force at the date of this Order. Where not modified by the terms herein, the provisions of Florida's enactment of Article 2 of the Uniform Commercial Code shall apply to this transaction.

15. MECHANIC'S LIENS. Notwithstanding that District is a local unit of special purpose government and not subject to the lien provisions of Chapter 713, *Florida Statutes*, Seller agrees to keep the Project free of all liens, including equitable liens, claims or encumbrances (collectively, "Liens") arising out of the delivery of any Goods by Seller, and shall furnish District with appropriate lien waivers from all potential claimants upon request of District. If any Liens are filed, District may without waiving its rights based on such breach by Seller or releasing Seller from any obligations hereunder, pay or satisfy the same and in such event the sums so paid by District shall be due and payable by Seller immediately and without notice or demand. Seller shall indemnify and hold District harmless for all expenses incurred by District as a result of the failure of Seller to fulfill its obligations under this Section 15.

16. [RESERVED.]

17. PARTIAL INVALIDITY. If in any provision of this Order shall be determined to be invalid or unenforceable under any applicable law, such provision shall not apply in such instance, but the remaining provisions shall be given effect in accordance with their terms.

18. ASSIGNMENT AND SUBCONTRACTING. This Order shall not be assigned or transferred by Seller without prior written approval by District, and any attempted assignment or transfer without such consent shall be void. Seller shall not subcontract this Order without the prior written consent of District. District may assign this Order to any transferee of the Project with Seller's written approval.

19. RELATIONSHIP. The relationship between District and Seller shall be that of independent contractor, and Seller, its agents and employees, shall under no circumstances be deemed employees, agents or representatives of District. Seller agrees that District shall not be responsible for job-site safety or safety of Seller's agents or employees in connection with delivery of the Goods.

20. NOTICES. Any notice, approval or other communication required hereunder must be in writing and shall be deemed given if delivered by hand or mailed by registered mail or certified mail addressed to the parties hereto as indicated on Page 1.

21. TERMINATION OPTION. Notwithstanding anything herein to the contrary, District shall have the right, at its sole election, to terminate this Order for any cause whatsoever upon the delivery of written notice to Seller.

22. RELEASE OF INFORMATION. Seller acknowledges that this Agreement and all the documents pertaining thereto are public records and subject to the provisions of Chapter 119, *Florida Statutes*.

FORM OF ADDITIONAL SERVICES ORDER

WORK AUTHORIZATION #26-14 FOR ADDITIONAL LANDSCAPE AND IRRIGATION MAINTENANCE SERVICES

THIS WORK AUTHORIZATION (the “**Work Authorization**”), dated December 23, 2025, authorizes certain work in accordance with that certain *Landscape and Irrigation Maintenance Services Agreement* (the “**Agreement**”), dated October 1, 2021, by and between:

SOMERSET COMMUNITY DEVELOPMENT DISTRICT, a local unit of special-purpose government established pursuant to Chapter 190, *Florida Statutes*, being situated in Walton County, Florida, and having offices at c/o Rizzetta & Company, Inc., 120 Richard Jackson Blvd., Suite 220, Panama City Beach, Florida 32407 (“**District**”); and

RIP’S PROFESSIONAL LAWN CARE, INC., a Florida corporation, with a mailing address of 511 North Highway 79, Panama City Beach, Florida 32413 (the “**Contractor**,” and collectively with the District, the “**Parties**”).

SECTION 1. SCOPE OF SERVICES. In addition to the Services described in the Agreement and any Exhibits and Amendments thereto, the Contractor will provide additional landscape and irrigation maintenance services, as set forth in the attached **Exhibit A**, which is incorporated herein by reference, all in accordance with the terms of the Agreement (collectively, the “**Additional Services**”).

SECTION 2. COMPENSATION. It is understood and agreed that the payment of compensation for the Additional Services under this Work Authorization shall be in the amount set forth in the attached **Exhibit A**, and in the manner set forth in the Agreement.

SECTION 3. ACCEPTANCE. Acceptance of this Work Authorization will authorize the Contractor to complete the Additional Services as outlined above and is indicated by the signature of the authorized representative of the District and the Contractor in the spaces provided below. Contractor shall commence the aforesaid Additional Services as provided herein and shall perform the same in accordance with the terms and conditions of the Agreement, which, except to the extent expressly altered or changed in this Work Authorization, remain in full force and effect.

[REMAINDER OF PAGE LEFT INTENTIONALLY BLANK]

IN WITNESS WHEREOF, the Parties hereto have caused this Work Authorization to be executed the day and year first above written.

Juniper Landscaping of Florida

**WORK AUTHORIZATION NUMBER 26-02
FOR ADDITIONAL SERVICES**

THIS WORK AUTHORIZATION (“Work Authorization”), dated January 6, 2026, authorizes certain work in accordance with that certain *Landscape and Irrigation Maintenance Services Agreement*, effective January 1, 2026 (the “**Agreement**”), by and between:

SOMERSET COMMUNITY DEVELOPMENT DISTRICT, a local unit of special-purpose government established pursuant to Chapter 190, *Florida Statutes*, located in Walton County, Florida (the “**District**”), and

JUNIPER LANDSCAPING OF FLORIDA LLC, a Florida limited liability company, with an address of 511 N. Highway 79, Panama City Beach, Florida 32413 (“**Contractor**”).

SECTION 1. SCOPE OF SERVICES. in addition to the services described in the Agreement and any exhibits, amendments and addenda thereto, Contractor shall provide stone replacement services, as set forth in the attached **Exhibit A**, which is incorporated herein by reference, all in accordance with the terms of the Agreement (collectively, the “**Additional Services**”). To the extent that the terms of **Exhibit A** conflict with terms of this Work Authorization or the Agreement, the Work Authorization and the Agreement shall control.

SECTION 2. COMPENSATION. As compensation for the Additional Services, the District agrees to pay Contractor **Fifty-Seven Thousand Six Hundred Forty-Eight Dollars (\$57,648.00)** due in full upon completion and acceptance of the Additional Services by the District.

SECTION 3. ACCEPTANCE. Acceptance of this Work Authorization authorizes Contractor to complete the Additional Services as outlined above and is indicated by the signature of the authorized representative of the District and Contractor. Contractor shall commence the aforesaid Additional Services upon the full execution of this Work Authorization and shall perform the same in accordance with the terms and conditions of the Agreement, which, except to the extent expressly altered or changed in this Work Authorization, remains in full force and effect.

IN WITNESS WHEREOF, the parties execute this agreement the day and year first written above.

Total:				\$395.55	

Guarantee: Any alteration from these specs involving additional costs will be executed only upon written order and will become an extra charge over and above estimate.

Standard Warranty: Juniper Landscaping of Florida LLC agrees to warranty irrigation, drainage and lighting for 1 year, trees and palms for 6 months, shrubs and ground cover for 3 months, and sod for 30 days. This warranty is subject to and specifically limited by the following:

Warranty is not valid on relocated material, annuals and any existing irrigation, drainage and lighting systems. Warranty is not valid on new plant material or sod installed without automatic irrigation. Warranty does not cover damage from pests or disease encountered on site, act of God, or damage caused by others. Failure of water or power source not caused by Juniper Landscaping of Florida LLC will void warranty. The above identified warranty periods commence upon the date of completion of all items included in this proposal. Standard Warranty does not modify or supersede any previously written agreement.

Juniper Landscaping of Florida LLC is not responsible for damage to non-located underground.

Residential Agreement: A deposit or payment in full will be required before any work will begin. Any and all balance will be due upon job completion in full, unless otherwise noted in writing. All work will be performed in a workman like manner in accordance to said proposal. Any additional work added to original proposal will require written approval, may require additional deposits and will be due on completion with any remaining balances owed.

DUE TO THE NATURE OF MATERIAL COST VOLATILITY, WE ARE CURRENTLY HOLDING PRICING FOR THIRTY (30) DAYS FROM PROPOSAL DATE

Post Pruning Production Report: Dune Scrub Zone Pruning – December 2025

Project Area: Approximately ¼ mile stretch of coastal dune scrub zone of Alys Beach

Cycle Completion: December 2025

Prepared by: Michael McClellan - Kenneth Nobles Tree Service, LLC

Table of Contents

- Project Overview
- Site Observations
- Pruning Methodology
- Adaptive and Ongoing Process
- Monitoring and Follow-Up
- Appendix A: Glossary of Arboricultural Terms
- Appendix B: Documentation
- Drone Footage Link

Project Overview

This pruning cycle encompassed a quarter-mile stretch of coastal dune scrub zone and included Sand Live Oaks (*Quercus geminata*), Yaupon Holly (*Ilex vomitoria*), Chapman Oak (*Quercus chapmanii*), and Myrtle Oak (*Quercus myrtifolia*). Additional small woody shrubs interspersed throughout the area were also treated as necessary. All work was performed under the supervision of an ISA Certified Arborist and in accordance with [ANSI A300 Tree Care Standards](#), following a natural [pruning system](#) designed to preserve both plant health and dune integrity.

Site Observations

Many of the trees and shrubs had been naturally salt-pruned due to the coastal exposure and [mechanically pruned](#) in the past. This history has created [hedge-like forms](#) that, while acceptable for many of the shrub species, are unnatural for the oak trees. The oak species have suffered a loss of [apical dominance](#), which is essential for regulating hormones and controlling growth patterns. This hormonal imbalance has encouraged vigorous vertical [epicormic sprouting](#). While shrubs can often adapt to hedge-like forms without significant decline, oaks require careful restoration of apical dominance to regain structural stability and natural growth regulation.

To Dune Doctor:

Subject: Post Pruning Production Report – Alys Beach
December 2025

Pruning Methodology

Our approach was deliberately species-specific. Extra time was taken to care for each plant according to its unique needs, with the goal of restoring and maintaining its natural form within the dune-scape. [Crown reduction](#) was the primary pruning method employed. In more dense areas, [selective pruning](#) was used to create openings to allow sunlight penetration. These pockets will help prevent lower branch die-off and encourage sprouting in the lower canopy, laying the groundwork for future pruning cycles aimed at gradually lowering canopy height over the next several annual pruning cycles.

Not all vertical [epicormic sprouts](#) were removed during this cycle; instead, some were retained to assist in restoring apical dominance while adhering to the 30% canopy removal limitation. Reduction cuts were made carefully, targeting 1–6 upright branches per plant with cuts ranging from ¼ inch to 2 inches in diameter, always at appropriate [laterals](#) to preserve natural form, growth habit, and to reduce hormonal growth responses.

[Deadwood](#) was managed with equal care. While some dead branches were removed to maintain access to under-canopy, portions were intentionally retained because of their ecological importance. Deadwood plays a vital role in the dune [ecosystem](#), providing wildlife habitat, nesting sites, and contributing to [nutrient cycling](#). Its presence supports [biodiversity](#) and strengthens the resilience of the coastal environment.

Adaptive and Ongoing Process

This pruning cycle serves as one phase within a carefully planned, multi-year approach to vegetation management in the coastal dune scrub zone. Due to the inherent sensitivity of coastal plant species to environmental factors such as salt spray and wind exposure, enhancements to scenic views must be carried out gradually in order to preserve ecosystem health and dune stability. This incremental strategy helps to minimize stress on the plants and maintains the ecological integrity of the dune landscape. The methodology is adaptive: tree responses will be monitored and techniques adjusted as needed to ensure long-term sustainability and health of the entire dune ecosystem. As an aside, during the course of our work, we encountered food trash and construction debris throughout the scrub zone. Every effort was made to remove what we could; however, even as we progressed, new construction debris continued to be placed in areas that had already been cleaned and restored. This persistent issue poses additional challenges to maintaining the health and resilience of the dune ecosystem.

To Dune Doctor:

Subject: Post Pruning Production Report – Alys Beach
December 2025

Monitoring and Follow-Up

A follow-up inspection will be scheduled for June 2026 to evaluate regrowth, canopy response, and dune ecosystem. Observations from this inspection will guide adjustments to future pruning cycles, ensuring that each species continues to regain and maintain its natural form. The same method of pruning/following up will be done with each pruning cycle for the duration of this multi-year pruning project.

Should you have any questions please feel free to contact me for additional information.

Kind Regards,

Michael McClellan

Subject: Post Pruning Production Report – Alys Beach
December 2025

Appendix A: Glossary of Arboricultural Terms

ANSI A300 Tree Care Standards

American National Standards Institute - industry standards that guide professional tree care practices, ensuring safety, consistency, and plant health.

Apical Dominance

The natural condition in which the terminal bud (tallest/highest branch tip bud in the tree) inhibits the growth and development of the lateral buds on the same stem formed during the same season.

Biodiversity

Biological diversity in an environment as indicated by the variety of different species of plants and animals

Crown Reduction

A pruning technique that reduces the size of the tree's crown (upper canopy) by cutting back to lateral branches, rather than making [heading cuts](#).

Deadwood

Branches that are no longer living. While some deadwood may be removed for structural balance, portions are intentionally retained because they provide wildlife habitat, nesting sites, and contribute to nutrient cycling within the dune ecosystem.

Ecosystem

System of interacting organisms (both plants and animals) and their physical environment

Epicormic Sprouts

Shoots that emerge from dormant buds along the trunk or branches, often in response to stress or pruning. These can be managed to balance canopy density and structure. Often these sprouts will grow quickly from stressed or pruned areas. Some may be retained permanently while others temporarily to support canopy recovery and apical dominance.

Heading Cuts

Pruning cut that removes a branch or stem between [nodes](#) (leaving a stub), to a bud, or to a live branch that is less than one-third the diameter of the stem being removed. These are avoided where possible because they can lead to weak regrowth and decay.

Hedge-Like Form

A compact, uniform growth pattern often resulting from mechanical and/or salt-pruning. While acceptable for many shrubs, this form is unnatural for oak species and contributes to loss of apical dominance.

To Dune Doctor:

Subject: Post Pruning Production Report – Alys Beach
December 2025

Lateral

Secondary or subordinate branch,

Leader

Primary terminal shoot or trunk of a tree. Large, usually upright stem. A stem that dominates a portion of the crown by suppressing lateral branches.

Lion tailing (lion's tailing)

Poor pruning practice in which an excessive number of branches are removed from the inside and lower part of specific limbs or a tree crown, leaving mostly terminal foliage. Results in poor branch taper, poor wind load distribution, and a higher risk of branch failure.

Node

Point on a stem from which leaves, branches, and arial roots are attached.

Nutrient Cycling

Movement of mineral elements (sometimes called nutrients) within an ecosystem as organic matter decomposes, releasing bound nutrients back to plants.

Mechanical Pruning

Pruning performed with mechanical equipment (such as hedge trimmers) that often results in uniform, hedge-like forms. While acceptable for some shrubs, this practice disrupts natural growth patterns in oaks.

Photosynthesis

Process in green plants (and in some algae and some bacteria) by which light energy is used to form glucose (chemical energy) from water and carbon dioxide. Oxygen is a natural byproduct of this process.

Pruning System

Technique or procedure that is applied to develop the desired long-term form of the plant

Selective Pruning

Targeted removal of specific branches to achieve objectives such as improved views, reduced canopy density, or enhanced plant health.

Specifications

Detailed plans, requirements, and statements of particular procedures and/or standards used to define and guide work.

WORK AUTHORIZATION #26-02

January 29, 2026

Somerset Community Development District
3434 Colwell Avenue, Suite 200
Tampa, Florida 33614

Subject: **Work Authorization Number 26-02 (“Work Authorization”)**
Somerset Community Development District

Dear Board of Supervisors:

Couch Collective, LLC (“Contractor”) is pleased to submit this work authorization to provide paver repair, installation and/or replacement services for the Somerset Community Development District (“District”). We will provide these services pursuant to our current *Agreement for Paver Repair, Installation and Replacement Services* dated April 3, 2025 (“Agreement”) as follows:

I. Scope of Work

The District hereby engages the services of Contractor to perform the work described in **Attachment A**, attached hereto. **Attachment A** shall not be incorporated herein, except that **Attachment A** is applicable to the extent that it states the Work’s scope of services for the labor and materials to be provided under this Agreement and the price. Otherwise, none of the provisions of **Attachment A** shall apply to this Work Authorization and the Agreement.

II. Fees

The District will compensate Contractor at the price listed in **Attachment A** in accordance with the terms of the Agreement and this Work Authorization.

This Work Authorization, together with the Agreement, represents the entire understanding between the District and Contractor with regard to the referenced Work Authorization. If you wish to accept this Work Authorization, please sign below where indicated, and return one complete copy to our office. Upon receipt, we will promptly schedule the approved services.

Sincerely,

Authorized Representative of
Couch Collective, LLC

APPROVED AND ACCEPTED

By: _____
Chair/Vice-Chair, Board of Supervisors
Somerset Community Development District
